Social Worker Risk Register & Risk Treatment Plan

Executive summary and recommendations

Introduction

1. The Social Worker Risk Register and Risk Treatment plan is a document reflecting current and recent levels of risk recognised by risk owners, related to the project to migrate Social Workers in England to a new regulator. Social Work England
2. The Project risk register is separate from the Enterprise Risk Register and Risk Treatment plan
3. This Social Worker Risk Register and Risk Treatment plan is continually under review. Residual risk is implicitly accepted for any current risk register unless otherwise indicated.
4. Three new columns for each risk are included in the version attached, detailing updates to mitigations or risks, dates of significant changes and an indicator if someone other than the risk owner is responsible for the mitigation.

Overview of Risk Management and Risk Treatment process

Throughout the year existing Risk Register & Risk Treatment Plan

the effectiveness of mitigations and the levels of residual risk.

Future risks are also documented, evaluated and monitored against the same criteria.

Every month these changes and additions to risks are updated in the risk register and formally documented by the risk owners, and project lead.

Individual risks are linked to the current Statement of Applicability by the ISO27001 Clauses noted in the ISMS Risks column on each page.

Strategic Objectives are linked to individual risks where applicable.

HCPC Strategic Priorities 2018 - 2020

code

SP1.Perf	Strategic priority 1: Improve our performance to achieve the Professional Standards Authority's Standards of Good Regulation
SP2.Com	Strategic priority 2: Ensure our communication and engagement activities are proactive, effective and informed by the views and expectations of our stakeholders
SP3.Adapt	Strategic priority 3: Ensure the organisation is fit for the future and is agile in anticipating and adapting to changes in the external environment
SP4.Evid	Strategic priority 4: Make better use of data, intelligence and research evidence to drive improvement and engagement

HCPC has an **averse** appetite to risk in that we;

- a. Identify all relevant risks
- b. Mitigate those risks to an appropriate level
- c. Invest mitigation resources in proportion to the level of risk
