Finance & resources Committee – 21 March 2007**

Projects Workplan 2007 - 2008

Executive Summary and Recommendations

Introduction

The attached document is the proposed projects workplan for 2007 – 2008. It outlines the major cross-department projects we intend to develop over the next financial year.

Decision

The Committee is asked to discuss the proposed workplan and agree its contents.

Background information

This document is intended to supplement the Council's strategic intent document and sits alongside other departmental level strategy and workplan documents such as Communications, IT, Registrations, Policy & Standards, Human Resources, Approvals & Annual Monitoring and Fitness to Practise.

It is a working document and is therefore always under review.

Resource implications

See attached workplan.

Financial implications

See attached workplan.

Introduction

Financial year 2007/8 will be the first year in which:

- There has been a dedicated Major Projects manager
- The new HPC project planning process has been implemented
- The new HPC project management methodology has been used.

The aims of the above are to ensure that:

- Projects are effectively planned and budgeted
- That the amount of work undertaken is set at a conservatively achievable level
- That the focus of all projects is to deliver results within reasonable budget and time constraints

The effective implementation of the above will result in improved resource deployment, a more controlled environment around projects and clearer communications around project status.

To this end, a list of prospective major projects was compiled in November 2006. The list was reviewed and discussed by all stakeholders and was limited to a realistic number. Initial technology requirements were gathered during December and quotes were obtained. The list was then realigned according to budget constraints by the stakeholders and the Executive Management Team and was finalised in January 2007. Projects will now be undertaken between April 2007 and March 2008.

This document

This document provides a summary of the projects that will be undertaken this year. The dates indicated are provisional dates driven by resource constraints (both internal and external), legislative deadlines and business need.

The timelines of those projects with a technology aspect have been estimated based on initial requirements and therefore may be subject to change once further analysis has been completed.

Should further legislation or business need require a change in the timetable or for an additional project to be added, the project planning process will be followed and the portfolio and / or timeline altered accordingly.

Resources

All capital expenditure is noted in the table below and projects will be run using existing human resources within the organisation.
