

Standards of proficiency for chiropodists / podiatrists

This document sets out the changes to the standards of proficiency for chiropodists and podiatrists.

The column on the left shows new standards in effect from **1 September 2023** and compares to current standards on the right. The current standards are not presented in their numerical order and instead organised to allow direct comparison with the relevant new standard. Numbering refers to the new standards only.

Deletions are indicated in the text by ~~strike through~~ whilst additions are shown in **bold**. Generic standards are indicated by **shaded cells**. These are standards which apply across all 15 professions. White cells are profession-specific standards. These are unique to each profession, although in many cases these are still consistent across multiple professions.

The current standards of proficiency for chiropodists/podiatrists are available to download and view for comparison at:
<https://www.hcpc-uk.org/standards/standards-of-proficiency/chiropodists-podiatrists/>

REVISED June 2023

At the point of registration, chiropractors / podiatrists must be able to:

No.	New standards	Standard
1	be able to practise safely and effectively within their scope of practice	be able to practise safely and effectively within their scope of practice
